No Worthy Coon Need Remain Homeless

Little Story in Herald Yesterday Brings Requests for Orphan by Mouth, Mail and Wire.

No worthy coon need remain homeless in these parts. An advertisement in the Herald will get a home for any orphan. These things were demonstrated by a little story last night telling about the coon which adopted L. T. Delaney and family. Mr. Delaney found it inconvenient to keep the coon and offered it to anyone who desired a kind and friendly coon in his home.

They commenced to come in this morning before breakfast and kept coming all day. Requests for that coon came by word of mouth, by telephone, local and long distance, and by mail and telegraph.

Coon came by word of mouth. By Santa Fe that he wanted the coon, there being a scarcity of coons in Santa Fe and considerable demand for them. George H. (Deke) Thomas telephoned from the sick bed (he having a bad cold) that the coon belonged to his uncle, Frank A. Hubbard and that Mr. Delaney would give it away at his peril. The Charles Jaffrey company claimed the coon as a house pet and a lady in Gloriets wrote that she would gladly pay express charges on it if sent to her. There were others, but the orphan coon was provided for early in the day. The Herald gets results, and incidentally Mr. Delaney is able to sleep nights.

HARRY LORD QUILTS BASEBALL FOR GOOD

Veteran Third Baseman of Chicago Americans "Felt Himself Slipping" Sent Word to Callahan and Left Town.

(By Leased Wire to Evening Herald)

Chicago, May 13.—Harry Lord, the veteran third baseman and captain of the Chicago Americans, has quit baseball because "he felt himself slipping," according to a dispatch from Washington received here today. Leaving word with another player for Manager Callahan, saying he was disgusted with his own poor playing, Lord left the team in Washington and boarded a train for his home in Maine today.

Manager Callahan has decided to make Shortstop Weaver the captain of the club, putting Alcock on third base and Blackburn back at second, according to the dispatch.

Lord came to the Chicago club from Boston in 1910. Second Baseman McConnell coming with him in exchange for two Chicago infielders.

There is a possibility that the games in the American league will be cut from nine to seven innings. Many fans around the circuit have declared that the games are too long or the players are mostly to blame because they do not hustle enough. President Johnson says he will look into the matter and see if he cannot instill more "pep" into the playing. If this does not work he will seriously consider chopping a couple of innings off the contests.

It begins to look as if the sounds of the Chicago White Sox have been making a big mistake in their work, and this is more noticeable this year than before. The so-called "ivory hunters" employed by the club have been bending their efforts to find hurlers for the team when they already have one of the best staffs in either big league, and have been seriously neglecting other departments, such as hitting. The result is that the Sox have been the best of twirlers, but very little hitting, and it is this alone that has caused their big slump of late.

Judge Raymonds at 2 o'clock this afternoon called for trial the cases appealed from the police court. A variety of misdemeanors are represented in the cases. Some of them date back as far as 1908. In several affirmations of the verdicts will be unique, because witnesses for the defense died or moved away.

DEMONSTRATION OF NEW CRUSHER AT THE FOUNDRY

Buchanan Machine Eats up any Kind of Rock with Ease. Will be Manufactured Here.

A demonstration was made yesterday afternoon of the Buchanan combined crusher and pulverizer. A number of spectators were present at the Albuquerque Foundry and Machine company plant to see the demonstration. All who saw the crusher at work were impressed with its possibilities. It is claimed for the crusher that it will crush rock that other machines will not crush. The demonstration would seem to bear out this claim. All kinds of rock was run through the machine and it was promptly and completely crushed.

It is also claimed for this machine that it can be operated at much less cost than any other crusher, and that on account of its power and low cost of operation it will revolutionize the crushing and pulverizing industry.

It is proposed to manufacture the crushers in Albuquerque, and it is stated that a large number of orders have already been booked.

Here's Grandmother's Recipe to Darken & Beautify Faded Hair.

That beautiful, even shade of dark, shiny hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars your face. When it fades, turns gray, streaked and looks dry, wispy and straggly, just an application of two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the tonic you can get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," ready to use. This can always be depended upon to bring back the natural color, thickness and lustre of your hair and remove dandruff, stop scalp itching and falling hair.

Everybody uses Wyeth's Sage and Sulphur because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time. By morning the gray hair has disappeared and after another application it becomes beautifully dark and appears glossy, lustrous and abundant.
